

What we
believe in

**OUR
PRODUCT
VISION**

Our Product Vision

We make mobility better for people and the environment.

Better: meaning safer

ADAS and autonomous driving solutions – for better road safety.

Automated cars need to very accurately and reliably detect their environment in real time.

Our Goal:
maximum safety
for drivers and traffic

Better: meaning more connected

Connectivity Solutions – We create stable connections for connected vehicles.

Vehicles need to communicate with each other and their surroundings safely. We create technology that connects.

Our Goal:
stable and robust connectivity of vehicles and infrastructure

Better: meaning more efficient

Infotainment Solutions – We enable more comfort and space.

Intelligent in-car communication technologies can help us to use the time we spend in our vehicles more efficiently. We transform the cockpit into a living room or an office.

Our Goal:
robust digital
in-car infrastructure

Better: meaning more sustainable

„Green Future“ Solutions – sustainable growth based on our values.

We combine technical innovation with economic, social and ecological sustainability.

Our Goal:
the long-term positive development of our company - for people, the environment and the mobility of tomorrow
